Dear Bill,

I just wanted to let you know that my hunting experience with you this season was one that I will never forget. I was very reluctant to book this hunt. I've hunted deer & elk for 30 years with my hunting group and never had a guided hunt in my life. My group has always been very successful through all these years.

My group did not draw tags this year for our Montana hunting area. I became a Nevada resident, so I have been applying for Nevada tags. I was drawn for the Ruby Mountains, where I used to hunt years ago. My hunting group decided to hunt Oregon. I opted to try the Nevada hunt. I am happy to say it was the right decision. I have not seen the quantity and quality of deer since the 1970's and 1980's, when I used to hunt the Ruby Mountains.

Your great hunting access, lodge, horses and your personal guiding services, I would recommend to any hunter novice or seasoned.

I had a fantastic hunt and shot a fine buck that my taxidermist will soon have completed.

Thanks again, for the wonderful hunt.

Sincerely,

P.S. I'll be back.
