Hi Bill & Pete ;

First let me wish you a happy and healthy New Year, and continued success, with your joint venture.

You know that your part of the world is my very favorite place of places. Bill it doesnt surprise me that you had your guest 15 for 15 on the kill. but then you didnt have rex and sex in that hunting party. I cant hit them and rex is only good at knee shots. So much for that crap I guess I have to tell you the whys and wherefores of our absence in the Ruby's in the last half year.

matter will be based on quality of life . If things go well Ill be on top of that mountAIN CALLED THE Rubys . Rex and I have talked each of the trips over a hundred times and we plan to be back I think you will agree life isnt made up of all plusses''so we are looking at this period as a slow time but we will return and Pete you will have to show me how to catch those damn trout you have to admit I am not your top of the line outdoorsman. or speller. but we are with out a doubt two of the most appreciative visitors because you do live in Gods country and we hope you get to continue to enjoy it for a long long time.

Best Regards
Bob

will write soon and keep you advised .
